CREATING THE NEXT GENERATION IN-CAR EXPERIENCE

OUR MISSION

Our mission — is to
Enhance the Travel Experience
for Passengers.

1 Research

2 Problem

3 Solution

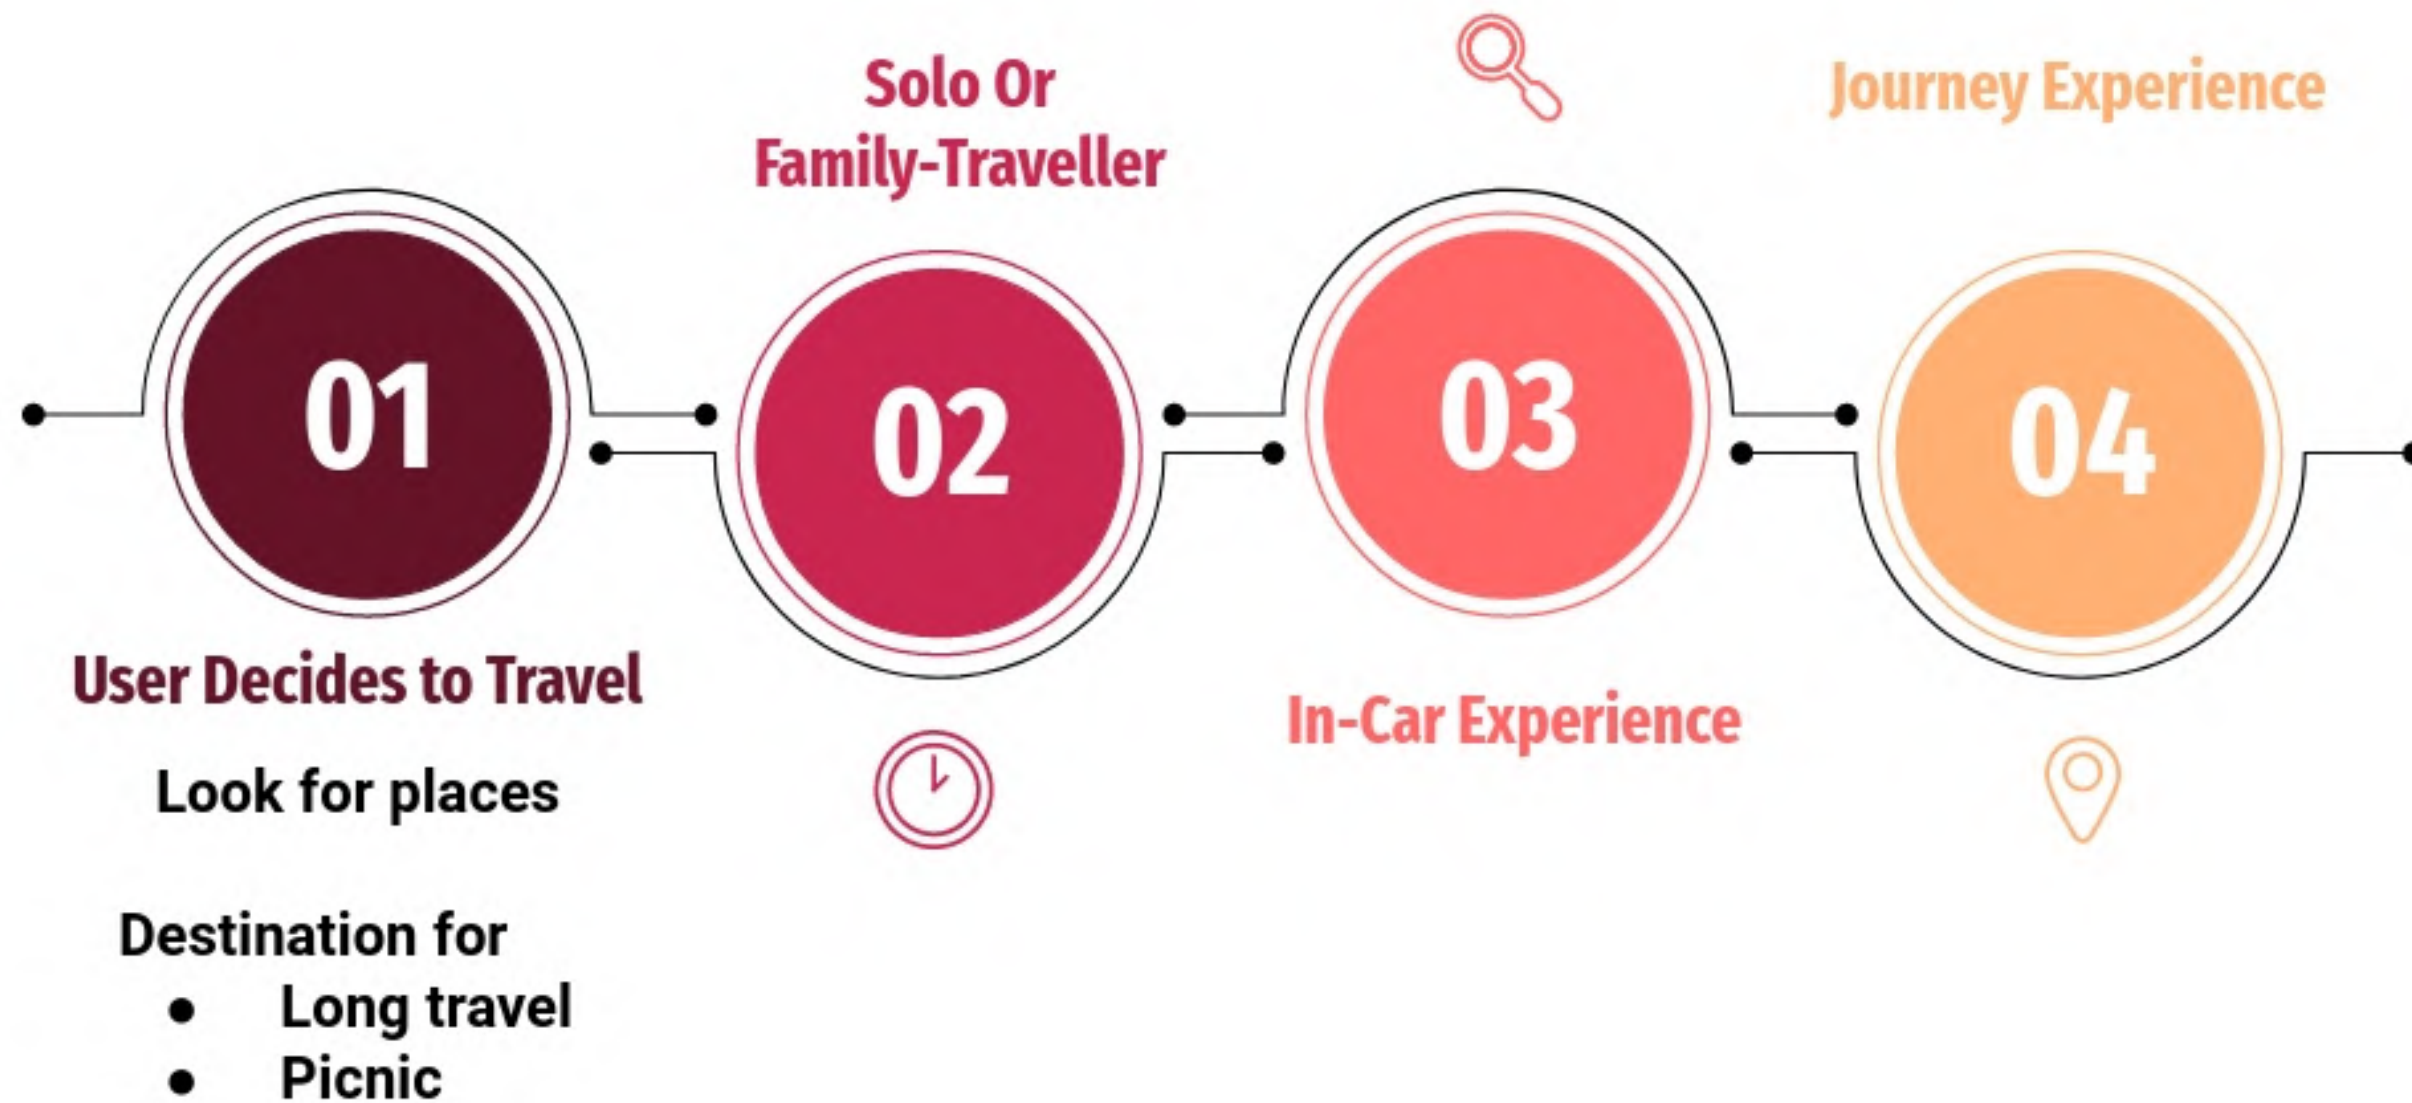

4 Pitch

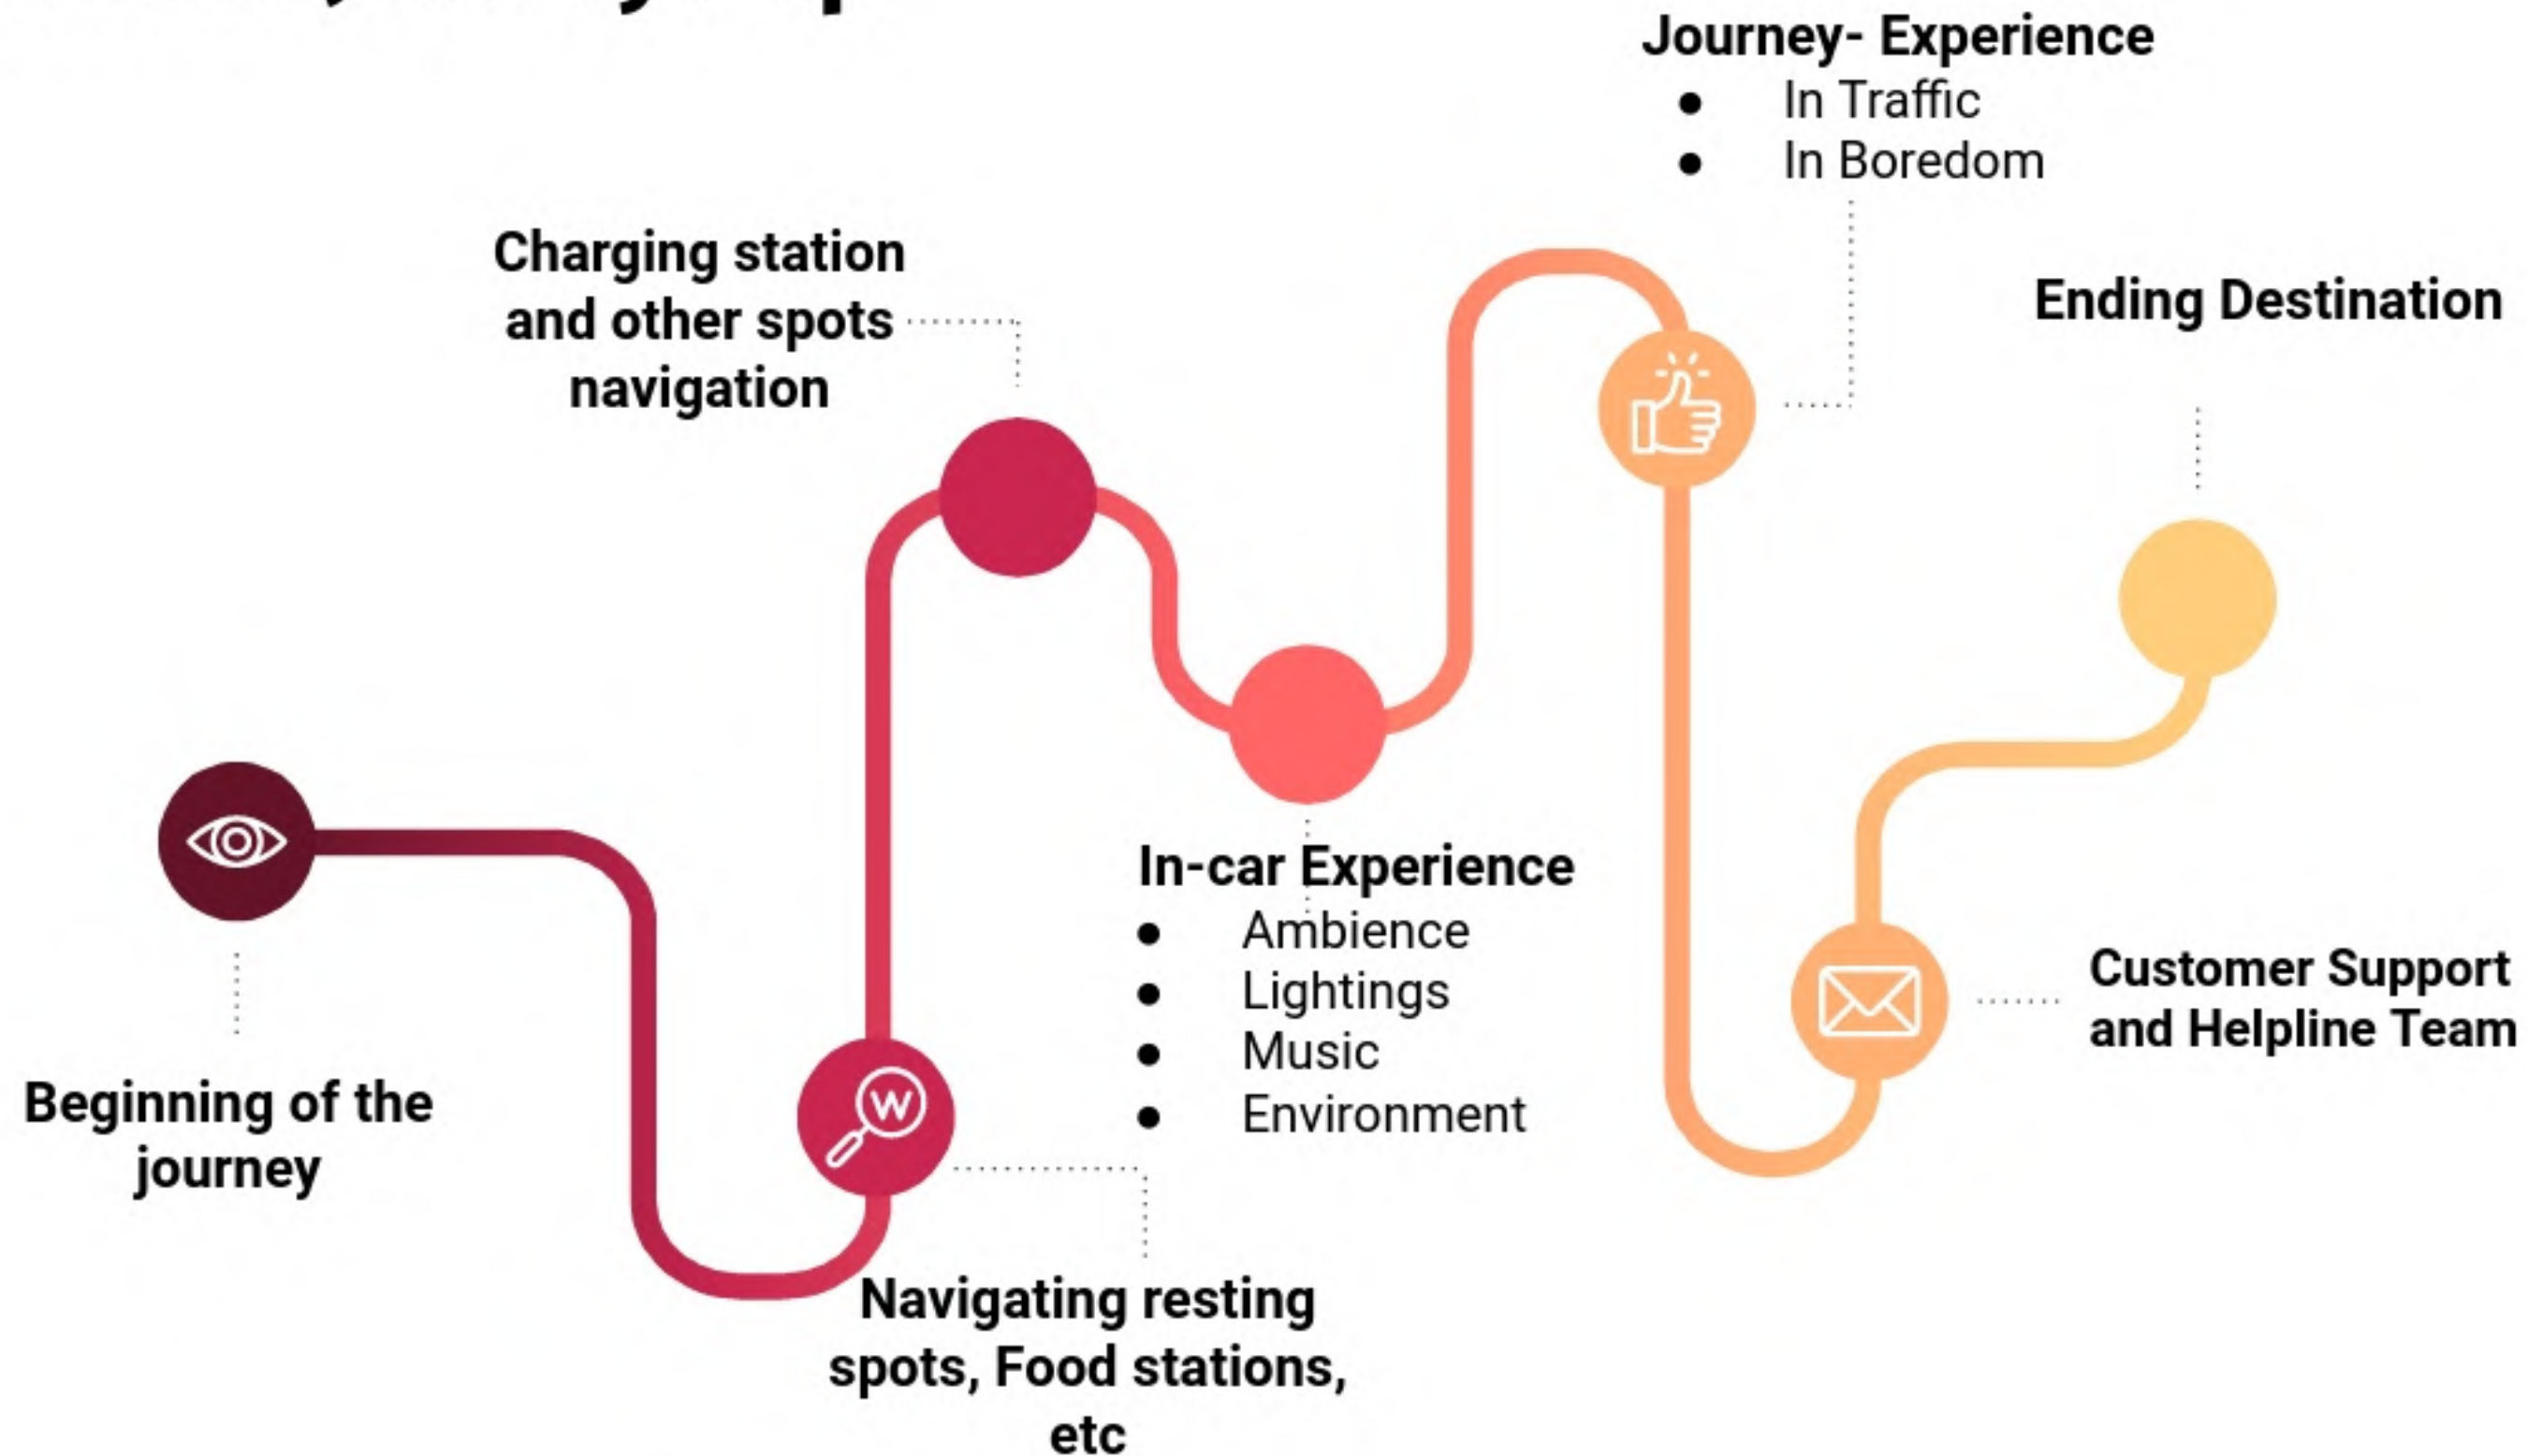

Customer Journey Map

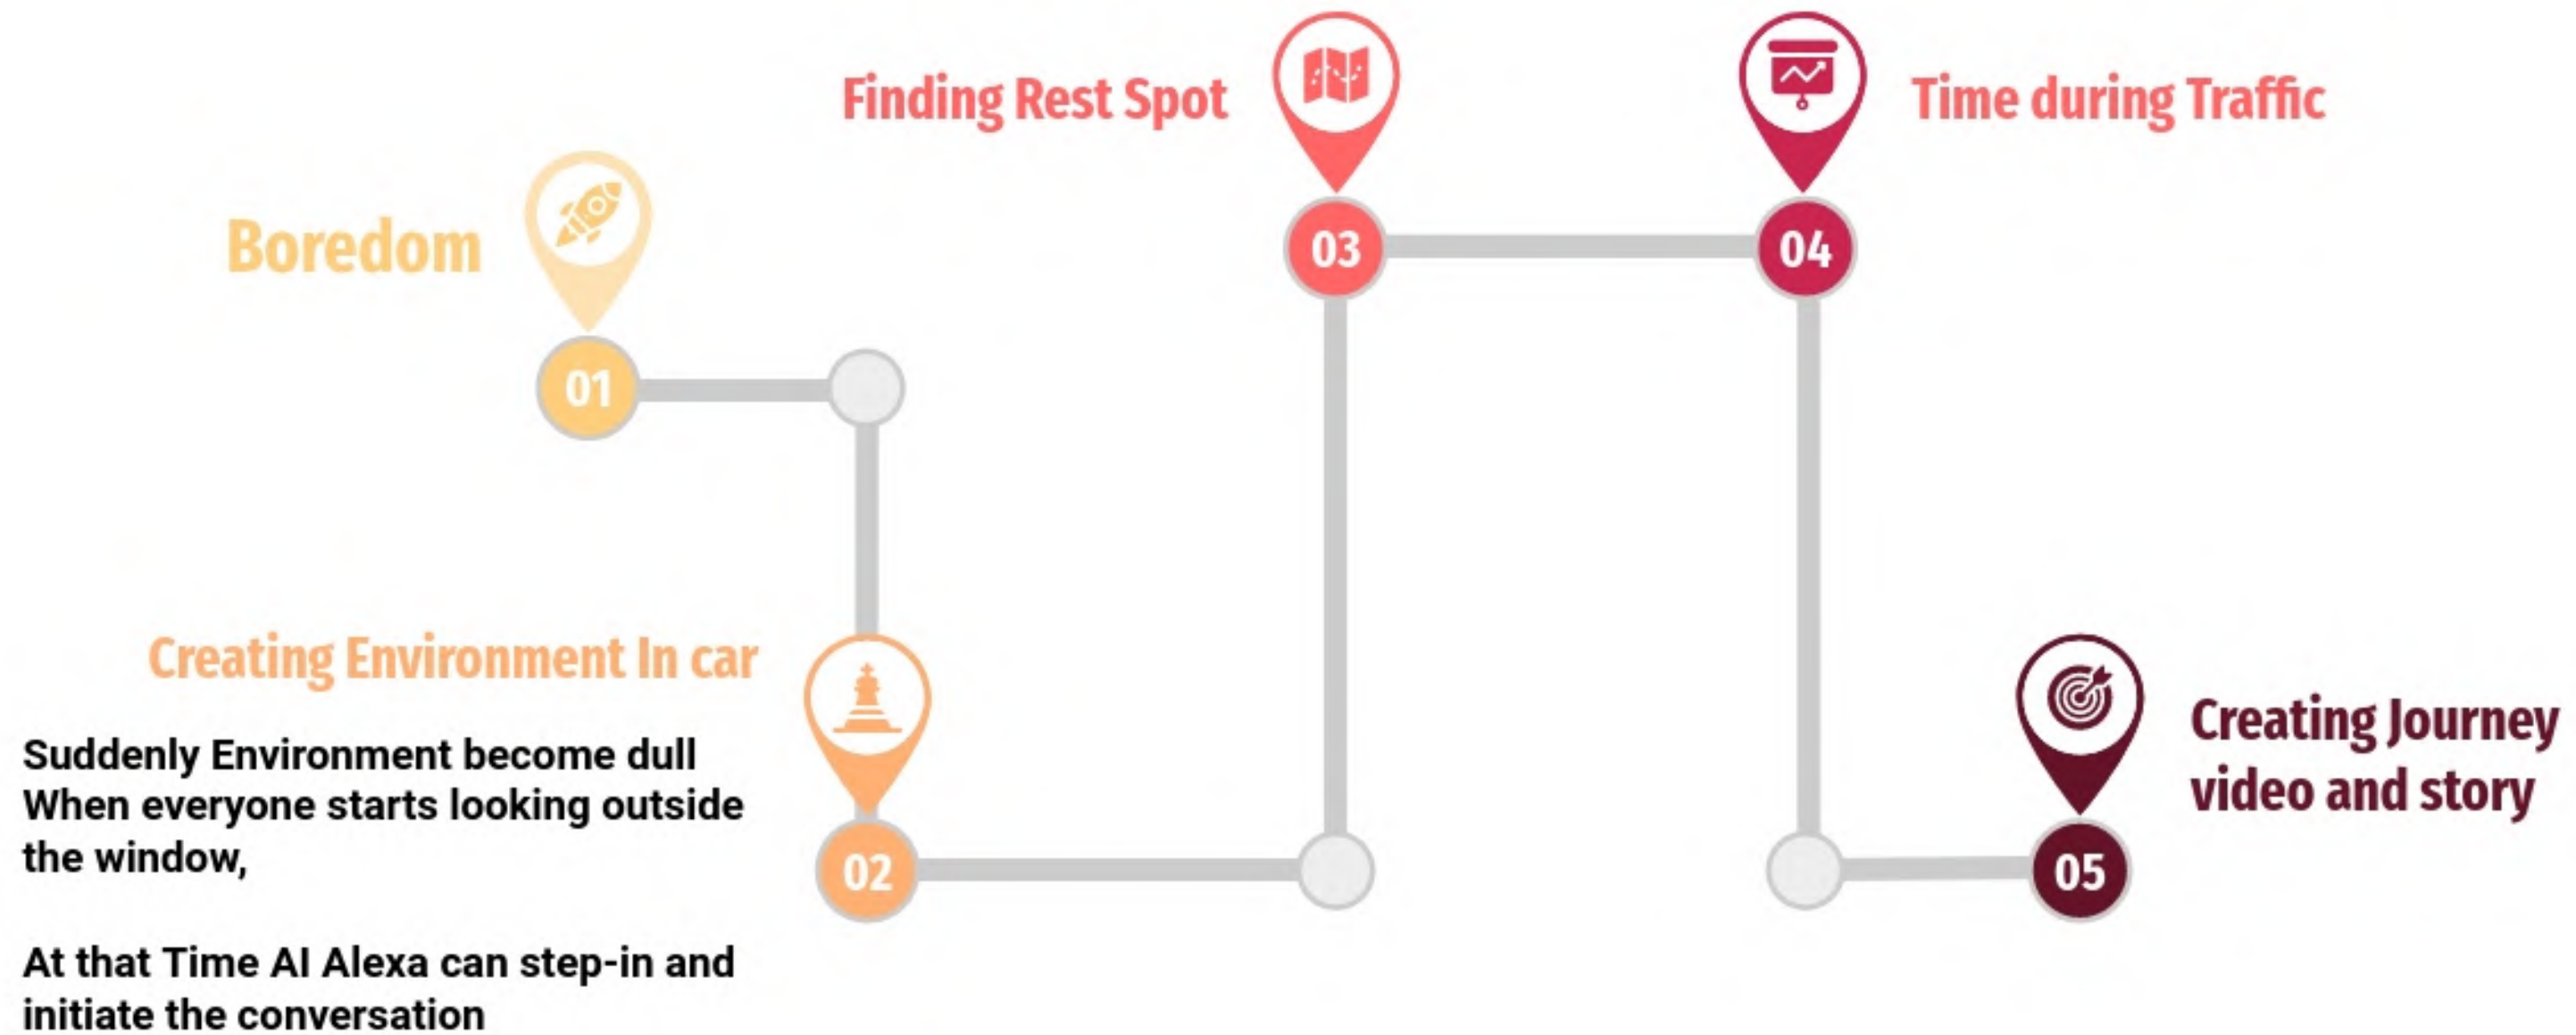

Customer Journey Map

Customer Journey Map

Customer Journey Map

Pain Points:

- ❑ **Boredom,**
- ❑ **Awkward Scenario, When Everyone starts looking outside the window.**
- ❑ **Time During Traffic.**
- ❑ **Find Good rest-spots**
- ❑ **Creating a Delightful Journey Story**

THE SOLUTION

“An algorithm, which will extracts features from customers based on a machine learning algorithm and will step-in to elevate customer satisfaction ”

“An algorithm, which will Detect landscape and take pictures and clips”

“An algorithm, which will Detect User emotions and take pictures and clips ”

For the final Story

App :

- ☒ **Real Time car status**
- ☒ **Battery Stations Navigation**
- ☒ **Real-Time access to camera and pictures**
- ☒ **Real-Time ambience control**
- ☒ **Real-Time car status and car status accessible to anyone (Webapp for this)**

For Car users who want to improve their trips and traveling experience, We provide a solution to enhance your journey experience,

with which you can make your memories memorable, and make your experience even more delightful.

Thank you **Stellantis**
